TRUCKER SHUTDOWN NOW UNSTOPPABLE - #T2SDA REACHES TIPPING POINT

On September 15th we launched a “gas-roots” campaign to inspire Independent Truckers and their supporters to assemble a convoy to Washington, DC on October 11th-13th, 2013. Please visit <http://www.RideForTheConstitution.org/mission> for more detailed information about this upcoming historic event.

Within days of generating awareness with the public, our Facebook pages have collectively received over 150,000+ “LIKE’s” allowing millions of fellow citizens to learn about the event. We now have many organizations joining us including 50,000+ “Overpasses for The Impeachment of Obama”, Uncle Sam’s Misguided Children (USMC), and many others including the most recent addition of Million Vet March on DC Memorials.

Since we launched in September, the U.S. Government has been ram-rodged into a shutdown whereby multi-millionaire politicians have decided to furlough American workers for their personal and political gain. Congress decided to pay Senior’s, Veterans and U.S. Military personnel as an afterthought once they were well positioned in front of the cameras for their next election.

Obama himself has decided to put barricades, barbed wire and blockades in front of our nation’s war heroes at the World War 2 Memorial, USMC Iwo Jima Memorial, and many other sites world wide memorializing the sacrifices we’ve made to keep us a great; proud nation. All Americans now see through his message of tyranny and socialism in the same way Nazi Germany was exposed before World War 2.

Obama-*Scare* has been rushed into implementation faster than the U.S. Government took to hunt down and kill an unarmed mentally distraught mother with a baby in her back seat.

Legislators are now threatening that if the American people do not raise the debt ceiling and pay the Bankster’s trillions more, that the financial system will collapse --- we the people consider this financial terrorism and will not let them get way with it any more. Every single American; regardless of their race, creed, color, sexual orientation or political persuasion now knows that there has never been a bailout or crisis in the entire world which has been solved by more debt. Greece and the USA are the models of disaster we can all reference when determining whether to follow the advice of Wall Street and the Global Banking Crime Syndicate ---- Greece, in fact, is the perfect example of what happens when the debt is so unbearable that a country must give up it’s land to the Bankster’s as collateral when countries can no longer pay their payments to the global Bankster’s.

The stage is now set for what we now consider the last peaceful defensive stand in a war that has been declared by Wall Street, Washington, and the Whitehouse upon the

American people. Since they have expressed their desire for war upon our people, we say: **"Let It Begin In Gilberton!"** at the public hearing in Gilberton, Pennsylvania Town Hall on Oc 10th at 5:30pm EST.

Constitutional Police Chief Mark Kessler has been battling the local, State and Federal government in a constitutional battle in direct retaliation for his outspoken stance on the Second Amendment. The people shall rise to the occasion at that hearing, and we fully expect numerous Truckers to press their front bumpers against the front door of the town hall at this public hearing. Thousands of the Chief's supporters are expected to attend ---- to defend and support the U.S. Constitution against our domestic enemies.

The momentum is now unstoppable. The American people will be heard between now and well into the weekend of October 11th as follows:

- 1) Week of October 6, 2013, media and public awareness campaign continues via Facebook pages setup for each state in the union, as well as the nightly radio show broadcast at 6pm PST / 9pm EST on <http://RideForTheConstitution.org>
- 2) **#T2SDA** hastag campaign is now spreading virally. Truckers and automobiles are encouraged to use white chalk on their windows or paint the hashtag on the side of their vehicle to generate awareness for the event and draw attention to the Twitter-Bomb campaign.
- 3) **#T2SDA** avatar to be distributed on Twitter and Facebook. Users are encouraged to replace their avatars to show support for the campaign on social media.
- 4) **10-04 HONK YOUR HORN!** We are encouraging all vehicles on the road to show their support for this event by honking their horn at 10:04 AM and 10:04 PM every day and night until our unconstitutional, mult-millionaire legislators vacate Washington DC, and are replaced by honest Americans who will impeach Barack Hussein Obama for treason against the USA. Let the honking begin!
- 5) **SOCIAL MEDIA BLITZ** - All Americans can participate in this effort to take back our country. We encourage everyone to click LIKE on the main page, <https://www.facebook.com/ridefortheconstitution> join their local state page / group, join in the conversation on YouTube, FaceBook and Twitter and bomb the internet to spread awareness. Social Media gives the people the ability to bypass the main stream media who is refusing to cover this event (as of now). Once we get tens of millions of people on the road coast-to-coast, they will have no choice but to cover it.
